The number of rounds in November decreased by 229 from the previous year. The number of weekday rounds booked through internet decreased very much (-208). The number of member & quest rounds on weekends also decreased (-143). The total sales decreased by 1,630,000 yen with one weekend day less.

The number of rounds and sales in December have shown some decreases from the previous year as well.

<From course maintenance>

The temperature has been below zero early mornings recently. We put cover sheets on greens No.1 to No.4 and No.10 to No.13 at night. We implement the work right after we mow greens afternoons. If it causes any potential inconvenience on your golf, we appreciate your understanding and co-operation.

Now that we need less time in lawn mowing because of slower growth of turf, we will start "to clean up bunker areas and replace bunker sand", "recover the turf on No.3 teeing ground", and "to cut brunches and trees hindering turf growth".
